Eye of Africa – House and Land Packages for buyers

Johannesburg, August 2010: Eye of Africa Golf & Residential Estate offers a new opportunity for potential purchasers to own their dream home within the Estate. Located South of Johannesburg, selected stands in Phase 2 include a number of house and land packages for sale.

The ten stands boast views of the magnificent golf course and surrounding picturesque landscape. Sizes of these stands range from 759m² to 1000m² with entry-level costs (inclusive of house and land) from R2, 5 million for a 260m² home.

The look and feel of each spec home varies per architect and the design aligns with Eye of Africa's architectural guidelines. The architectural vision incorporates the use of simple raw materials gleaned from the surrounding Highveld earth fused with European and African designs – all combining into a unique "Afropean" style. This modern approach creates aesthetically pleasing, climatically appropriate and environmentally responsive homes.

A show village is located at the entrance of Eye of Africa and allows potential purchasers the chance to view five unique homes which reflect the architectural guidelines and create a sense of the residential Afropean lifestyle concept.
